QUICK GUIDE
Fanvil X5U WIFI Setup

Fanvil X5U

Fanvil X5U WIFI Setup

1. Connect phone to power and wait for it to load up.
2. On the main screen, press the MENU softkey.

3. Use the up/down/left/right navigation keys to select the BASIC option on the screen and then press the OK navigation key.
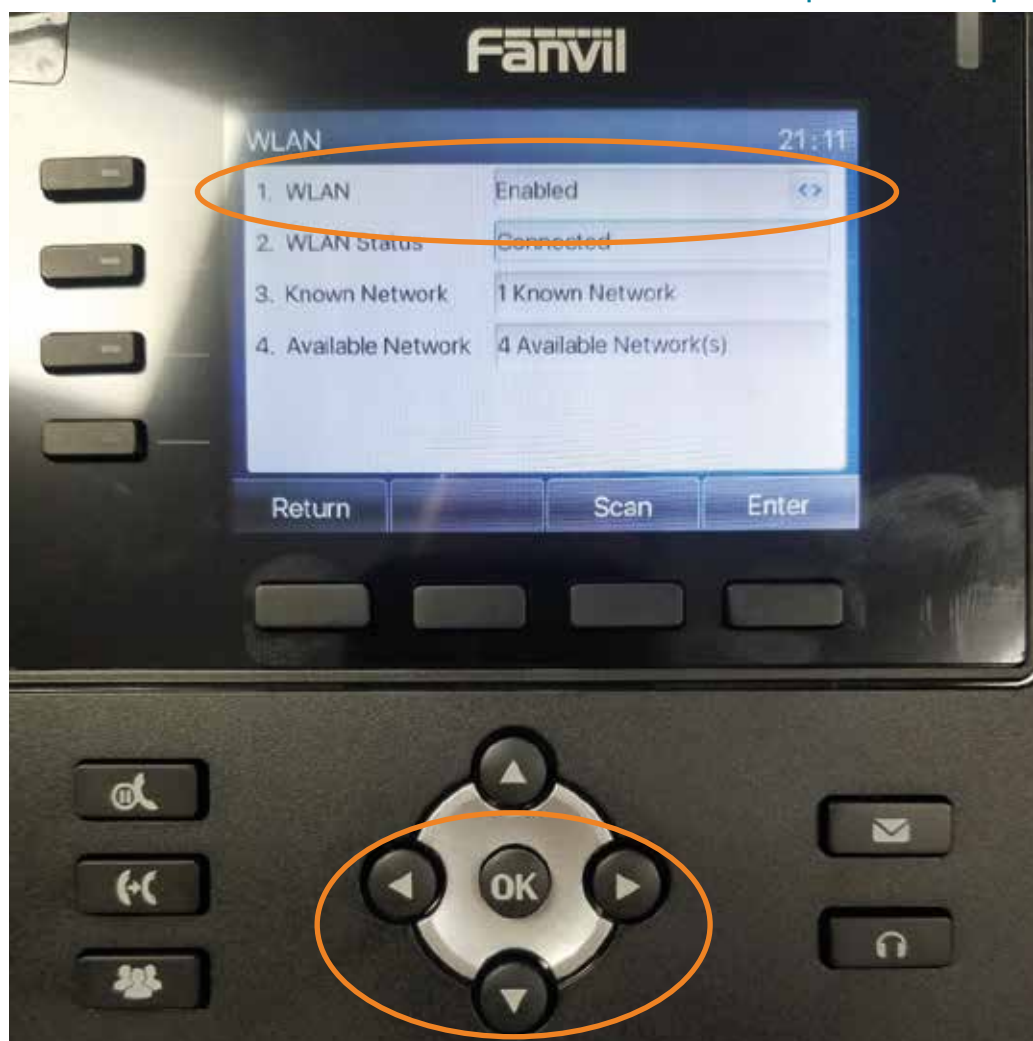

4. On the next screen, use the DOWN navigation key until you get to the 9.WLAN option and press the OK Softkey.

5. Press the LEFT or RIGHT navigation key until the WLAN changes to "Enabled" and press the OK navigation key. The phone should show "SCANNING" for a few seconds. Once done this will provide extra options on the screen.

6. Use the DOWN navigation key to move to 4. Available network and press the OK navigation key.

7. The phone will search for any wifi networks. Use the UP/DOWN navigation keys to select the name of your wifi network and then press the CONNECT softkey.

8. Enter your network password using the keypad. Please pay attention to the input mode as this effects which characters are entered. It has a few different modes which are toggled by pressing the key indicated below

This will change the input mode as follows

Displayed	Text Description
123	Numbers only
abc	Lowercase letters. Multiple presses of a number key will progress through available letters, i.e. 2 = a, 22 = b, 222 = c etc
ABC	As above but for capital letters
Abc	Automatically capitalizes the first letter but then switches to lowercase for additional letters
2aB	This will scroll through ALL available letters for a single key, i.e. 2 =2, 22 = a, 222 = b, 22222 = A etc

Special characters are available via repeated presses of the # or * keys but only if the input mode is a letter.
* will produce . , * / + - : _ = (in that order)
# will produce # ^ ! & $ % (in that order)

0 will produce a space

9. Once you have entered the password, press the OK key.

10. Wait a few seconds. If it fails to connect, it will show an error message. If this happens, try entering your password again. If you don't see any errors, press the RETURN key 3 times to return to the main screen.

11. If its connected ok, the Wi-Fi icon will show in the top right of the screen.
